### CIRCULAR

#### **Sub: Extension of RIICO feeder outside RIICO Industrial Area for providing Industrial/ Non-domestic connections.**

For providing supply from RIICO feeder for the connections outside RIICO Industrial area, there was a provision (Clause-7-E) in TCOS-2004 (amended upto Dec,2017) for extension of lines beyond RIICO Industrial areas in TCOS-2004 (amended upto Dec,2017) as under:

‘In case the proposed industrial/Non-domestic loads are existing in the rural areas outside limit of RIICO's Industrial area the 11 KV line existing in the Industrial Area may be extended, subject to technically feasibility up to the limits of 1 KM from the periphery of the RIICO Industrial area for catering the industrial/Non-domestic loads. If extension of 11 kV line is required more than 1 Km then separate feeder from the 33/11 KV sub-station feeding the industrial area shall be laid. Such connection shall be released preferably on 11 KV supply voltage with metering on 11 KV side irrespective of the load of the applicant. Cost of providing supply shall be borne by the consumer.’

This provision is not there in TCOS-2021, but Clause-7.5(m)(xiii) of TCOS- 2021 stipulates as under;

‘In case of private Industrial area, after taking over of the electrical infrastructure by the Nigam, the ownership of such network shall vest in the Nigam, therefore Nigam shall have the right to use the electrical infrastructure to release connections to any other applicant who approaches the Nigam. The Nigam shall have right to extend the LT lines, 11 KV lines or 33 KV lines or EHT lines as the case may be beyond/outside the periphery area after taking over the complete project as per technical sanction by the Nigam.

Further, in case of RIICO industrial areas, the work of laying of main feeder line i.e. 132/33/11 KV lines upto RIICO Industrial areas and associate sub-station required for the existing and new industrial areas is borne by the Nigam.

Therefore in view of above provision and for optimum utilization of the infrastructure of Nigam, for providing industrial/Non-domestic connections the 11 kV RIICO feeder may be extended upto limit of 1 KM beyond RIICO. However proper protection as per CEA (Measures relating to Safety & Electric Supply) Regulation- 2010 shall be ensured.

By Order,

**(R. S. BADIYASAR)**
