

Guidelines for NEFT/RTGS Payment through Net Banking or Branch

(For All type of Consumers)

To make the Bill payment to JDVVNL, Unique Virtual Account Number (VAN) is created for all the consumers (Domestic. Non Domestic, HT etc). Now the Consumer can use this VAN to make bill payments through RTGS/NEFT mode.

Virtual Account Number is a combination of "**JDVVNL**" & **K-Number** the consumer.

For e.g if your **K-Number** is 123456789123 then simply mention **JDVVNL123456789123** in place of the Bank Account Number.

The IFSC code for this transaction will be [HDFC0000142](#) & Bank Name is **HDFC Bank Ltd, Jodhpur- Rajasthan**.

By using above details you can make the Bill Payment via RTGS/ NEFT mode from **Any Bank** either through online Banking or by visiting your bank branch.

HDFC Bank Customers can use eCMS option for Online Payment and Fund Transfer mode for Payment through Challan. All other Bank Customers to use RTGS/NEFT mode for online as well as challan payment.

The Consumer must ensure that transaction amount should match with the due amount mentioned on Bill else the transaction will be rejected.

The rejected transaction will be returned by Next Working day to the remitter's account.

It is advised to avoid IMPS transaction as the rejected IMPS transactions will not be auto returned to the remitter's account due to non availability of the remitter account details in IMPS transaction.

It is advised to avoid last date payments and initiate payment atleast 2-3 days before the last date of bill.

The Bill Payment can be initiated from Any Bank via RTGS/NEFT.
